

"CHEMISTRY OF HETEROCYCLIC COMPOUNDS"
TOP VIEWED ARTICLES ON-LINE, vol. 41, 2005

1	No 2, pp. 137–162	Quinoline Oximes: Synthesis, Reactions and Biological Activity. (Review) <i>E. Abele, R. Abele, K. Rubina, and E. Lukevics</i>
2	No 8, pp. 951–961	Synthesis and Transformations of Heterocyclic Compounds under the Influence of Microwave Radiation. (Review) <i>D. L. Rakhmankulov, S. Yu. Shavshukova, and F. N. Latypova</i>
3	No 3, pp. 281–311	Spiropyrans: Synthesis, Properties, and Application. (Review) <i>B. S. Lukyanov and M. B. Lukyanova</i>
4	No 3, pp. 387–392	Condensation of Pyrazol-5-ones Unsubstituted in the Position 1 with β -Keto Esters. Synthesis of Pyrano[2,3- <i>c</i>]pyrazol-6-ones <i>N. L. Nam and I. I. Grandberg</i>
5	No 1, pp. 24–78	Chemistry of Heterocyclic Compounds at the Department of Organic Chemistry, Chemical Faculty M. V. Lomonosov State University. (Review) <i>M. A. Yurovskaya</i>
6	No 7, pp. 809–819	N-Cyanoimines in the Synthesis of Heterocyclic Compounds. (Review) <i>D. D. Nekrasov</i>
7	No 12, pp. 1447–1475	Dibenzotetraazamacroheterocycles: Synthesis and Properties. (Review) <i>O. V. Kulikov, V. I. Pavlovsky, and S. A. Andronati</i>
8	No 6, pp. 691–717	Methods for the Synthesis of Heteroaryl-substituted 1,4-Benzo- and 1,4-Naphthoquinones. (Review) <i>N. G. Batenko, G. Karlivans, and R. Valters</i>
9	No 5, pp. 551–591	Five-, Six-, and Seven-Membered Lactim Ethers. Methods of Synthesis and Chemical Properties. (Review) <i>M.-G. A. Shvekhgeimer</i>

10	No 9, pp. 1091–1101	Synthesis of Azoles with Two Pyridine Substituents at Carbon Atoms and Their Use in Coordination Chemistry. (Review) <i>S. Z. Vatsadze, V. N. Nuriev, and N. V. Zyk</i>
11	No 9, pp. 1201–1202	Novel Approach to Synthesis of Imidazo[2,1- <i>b</i>]-[1,3]benzoxazines <i>N. E. Sidorina and V. A. Osyanin</i>
12	No 10, pp. 407–425	Methods for the Synthesis of Isogramines and Their Chemical Properties. (Review) <i>B. B. Semenov and M. A. Yurovskaya</i>
13	No 1, pp. 1–10	The 40th Anniversary of the Journal "Khimiya Geterotsiklicheskikh Soedinenii" [Chemistry of Heterocyclic Compounds]
14	No 4, pp. 452–455	Synthesis of N-Vinylpyrazoles <i>O. S. Attarian, S. G. Matsoyan, and S. S. Martirosyan</i>
15	No 5, pp. 689–690	Three-component Reaction of 2-Aminobenzothiazole with Methylene-active Carbonyl Compounds and Aldehydes <i>A. A. Pavlenko, Kh. S. Shikhaliev, A. Yu. Potapov, and D. V. Krylsky</i>
16	No 12, pp. 1476–1479	New Synthesis of 2-Nitroaryldifurylmethanes <i>F. A. Tsiunchik, V. T. Abaev, and A. V. Butin</i>
17	No 5, pp. 673–678	5-Phenyl-2-(pyrazol-4-yl)-1,3,4-thiadiazoles <i>T. V. Shokol, V. V. Semenyuchenko, and V. P. Khilya</i>
18	No 6, pp. 739–744	Nitropyridines. 2. Hantzsch Synthesis of Nitro- and Dinitropyridines <i>G. P. Sagitullina, L. V. Glizdinskaya, and R. S. Sagitullin</i>
19	No 9, pp. 1102–1104	New Synthesis of 3-(2-Furyl)phthalides <i>A. S. Dmitriev, A. S. Pilipenko, V. T. Abaev, and A. V. Butin</i>
20	No 1, pp. 119–123	Heterocycles with a Bridging Nitrogen Atom. 15. The Novel Recyclization of Dipyrido[1,2- <i>a</i> :1',2'- <i>c</i>]-imidazolium Salts to Pyrido[1,2- <i>a</i>]benzimidazole-8-carboxaldehydes <i>E. V. Babaev and G. A. Tikhomirov</i>
